

Dear Secretary

A couple of clubs have asked me how to print off a single page of the PBA Championships rather than the whole document: I hope the enclosed will be of use.

- 1.0 From the PBA website go to the PBA Championships webpage.
- 2.0 Click on the GREEN button for results which should bring up a pdf file on your computer.
- 3.0 On the screen usually top right click the print symbol
- 4.0 If the destination states pdf change in the drop down arrow to your printer name
- 5.0 In the pages drop down click custom and underneath click the page number you wish to print.
- 6.0 press print and you should have the required page.

Kind Regards

Ray
